# Ieda Oliveira

## Data Analytics & BI

Suzano, SP, Brazil · +55 11 93012-2714 · iedahirari@gmail.com · linkedin.com/in/ieda-oliveira · github.com/iedahirari · Portfolio: iedahirari.github.io/portifolio

### OBJECTIVE

Internship or junior role in Data Analytics, Business Intelligence or related areas.

### SUMMARY

Mathematics (IFSP) and Computer Science (Braz Cubas) student moving into data, with 6 years of retail management experience tracking KPIs, inventory and a sales team. I build projects with Python (pandas), SQL and Power BI on real data, such as an analysis of 100k e-commerce orders and crawlers that collect public data from the Brazilian Treasury API. Published paper on cloud database security.

### SKILLS

| | |
|---|---|
| **Analysis & Python** | Python (pandas, NumPy), Matplotlib and Seaborn, Jupyter, Exploratory data analysis (EDA), Descriptive statistics |
| **BI & Visualization** | Power BI (DAX, Power Query), Star schema modeling, Looker Studio, Excel (pivot tables, VLOOKUP/XLOOKUP), Data storytelling |
| **Data & Engineering** | SQL (joins, aggregations, subqueries), MySQL and relational modeling, Web scraping and REST APIs, Automation with GitHub Actions, Git and GitHub |
| **Languages** | Portuguese: native, English: technical (reading and writing), Spanish: basic |

### PROJECTS

**E-commerce delivery and satisfaction analysis (Olist)**
Python, pandas, Seaborn, Power BI, DAX · github.com/iedahirari/dashboard-ecommerce-olist

- Analyzed about 100k real orders (6 tables) and showed that late orders average a 2.27 rating versus 4.29 for on-time orders, driving 32% of negative reviews while being only 7% of orders.
- Built a sales and logistics dashboard in Power BI with a star schema, Power Query and DAX measures (revenue, average order value, delivery time and late rate).

**MONITORAÊ: public spending transparency portal**
Node.js, PHP, MySQL, GitHub Actions · iedahirari.github.io/Projeto-de-Engenharia-de-Software-2---ES2

- Developed crawlers that collect data from the Brazilian Treasury API (SICONFI) and the city portal, handling encoding and currency formats.
- Automated weekly data collection with GitHub Actions and published spending-by-area and state-transfer reports for citizens.

**Network failure predictor with a decision tree (team project, in progress)**
Python, scikit-learn, pandas · github.com/ZorahSai/Projeto-WebAgriculture-

- Collected RIPE Atlas measurements, labeled them by each flow's deviation from baseline and trained a decision tree with a time-based train/test split, using Scrum.

## PROFESSIONAL EXPERIENCE

**Sales & Operations Manager** Jun 2020 – Sep 2026
Lua Luana (retail) · Suzano, Brazil

- Tracked daily and monthly KPIs, sales targets and the sales funnel.
- Managed inventory with ABC analysis and stock turnover to plan purchases and reduce stockouts.
- Built management reports in spreadsheets for the board and the finance team.
- Led, hired and trained the sales team.

**Receptionist & Administrative Assistant** Nov 2018 – Feb 2019
Odonto Pride (dental clinic) · Suzano, Brazil

- Scheduling system, customer service and patient records kept accurate and confidential.

**Sales Associate** Aug 2016 – Mar 2018
Lua Luana (retail) · Suzano, Brazil

- Consultative sales, inventory counts and restocking.

**Credit Recovery Agent** Oct 2013 – Apr 2015
Rede de Cobranças Bandeirantes · São Paulo, Brazil

- Analyzed delinquent accounts and negotiated payment agreements to meet recovery targets.

## EDUCATION

**B.Sc. in Computer Science** Expected 2029
Centro Universitário Braz Cubas

**Degree in Mathematics** Expected 2028
Federal Institute of São Paulo (IFSP)

**Associate degree in Systems Analysis and Development** 2019 – 2024 (not completed)
Fatec Mogi das Cruzes

## COURSES & PUBLICATION
