Ieda Oliveira

Business Analysis, Requirements & Processes

Suzano, SP, Brazil · +55 11 93012-2714 · iedahirari@gmail.com · linkedin.com/in/ieda-oliveira · github.com/iedahirari · Portfolio: iedahirari.github.io/portifolio

OBJECTIVE

Internship or junior role as a Business Analyst, Requirements Analyst or Process Assistant. Also open to Functional Support, Systems Implementation and Business Systems Analyst roles; Data/BI focused on operations is complementary.

SUMMARY

Computer Science (Braz Cubas) and Mathematics (IFSP) student seeking a junior or internship role as a Business Analyst, Requirements Analyst or Process Assistant. Also open to Functional Support, Systems Implementation and Business Systems Analyst roles; Data/BI focused on operations is complementary. I have over 6 years of commercial operations management experience tracking indicators, targets, inventory and teams and preparing reports to support decisions. In an academic project, I contributed to requirements gathering and organization, a traceability matrix, UML use cases and team-based system development. I completed Process Modeling — Bizagi (BPMN) in October 2026. I also use SQL, Excel, Python and Power BI in data analysis projects, including a study of about 100k e-commerce orders.

SKILLS

Business & processes	Requirements gathering and organization (academic project), Traceability matrix and UML use cases, BPMN process modeling with Bizagi, Sales indicators, targets and funnel, ABC analysis and inventory turnover
Systems & data	SQL (joins, aggregations, subqueries), MySQL and relational modeling, PHP and Node.js in projects, Web scraping and REST APIs, Git and GitHub
Reporting & BI	Excel (pivot tables and VLOOKUP/XLOOKUP), Power BI (DAX, Power Query), Star schema modeling, Python (pandas, NumPy), Jupyter, Matplotlib and Seaborn
Languages	Portuguese: native, English: basic to intermediate, Spanish: basic to intermediate

PROJECTS

MONITORAÊ: requirements and public transparency system

Requirements engineering, UML, PHP, Node.js, SQL · iedahirari.github.io/Projeto-de-Engenharia-de-Software-2---ES2

- Contributed to requirements gathering and organization, a traceability matrix and UML use cases in an academic team project.
- Developed crawlers and supported publication of public data from the Brazilian Treasury and Mogi das Cruzes City Hall.

E-commerce delivery and satisfaction analysis (Olist)

Python, pandas, Seaborn, Power BI, DAX · github.com/iedahirari/dashboard-ecommerce-olist

- Analyzed about 100k real orders (6 tables) and showed that late orders average a 2.27 rating versus 4.29 for on-time orders, driving 32% of negative reviews while being only 7% of orders.
- Built a sales and logistics dashboard in Power BI with a star schema, Power Query and DAX measures (revenue, average order value, delivery time and late rate).

Network degradation predictor with a decision tree (team project, in progress)

Python, scikit-learn, pandas · github.com/ZorahSai/Projeto-WebAgriculture-

- Collected RIPE Atlas measurements (97 flows), labeled each by its deviation from the flow's baseline and trained a decision tree on over 115k measurements, reaching a 0.99 macro F1 on validation with a time-based train/test split, using Scrum.

PROFESSIONAL EXPERIENCE

Sales & Operations Manager Jun 2020 – Sep 2026
Lua Luana (retail) · São Paulo, Brazil

- Tracked daily and monthly KPIs, sales targets and the sales funnel.
- Managed inventory with ABC analysis and stock turnover to plan purchases and reduce stockouts.
- Built management reports in spreadsheets for the board and the finance team.
- Led, hired and trained the sales team.

Receptionist & Administrative Assistant Nov 2018 – Feb 2019
Odonto Pride (dental clinic) · Suzano, Brazil

- Scheduling system, customer service and patient records kept accurate and confidential.

Sales Associate Aug 2016 – Mar 2018
Lua Luana (retail) · São Paulo, Brazil

- Consultative sales, inventory counts and restocking.

Credit Recovery Agent Oct 2013 – Apr 2015
Rede de Cobranças Bandeirantes · São Paulo, Brazil

- Analyzed delinquent accounts and negotiated payment agreements to meet recovery targets.

EDUCATION

B.Sc. in Computer Science Expected 2029
Centro Universitário Braz Cubas

Degree in Mathematics Expected 2028
Federal Institute of São Paulo (IFSP)

Associate degree in Systems Analysis and Development 2019 – 2024 (not completed)
Fatec Mogi das Cruzes

CERTIFICATIONS & PUBLICATION

- Process Modeling — Bizagi (BPMN process modeling). Bizagi, Oct 2026.
- Paper: "Access Control Models for Cloud Databases: a comparative analysis" (in Portuguese). Revista EduFatec, no. 6, v. 2, 2023.
- Preparing Data for Analysis with Microsoft Power BI. Fundação Bradesco, Jan 2025.
- Digital Culture. Fundação Bradesco, Jan 2025.
- Data Analysis in Power BI. Fundação Bradesco, Nov 2024.
- Introduction to Data Analysis: Microsoft Power BI. Fundação Bradesco, Nov 2024.
- Implementing Databases. Fundação Bradesco, Dec 2023.

VOLUNTEERING

Volunteer Tutor: Digital Inclusion for Seniors Mar 2019 – Jun 2019
Fatec Mogi das Cruzes

- Helped seniors in hands-on computer classes and added basic smartphone tasks to the course, with one-on-one support and plain language so each student could do things on their own.
